

## Reduce Labor, Increase Customer Satisfaction

Deliver a Spot-Free Car Every Time

### Give your customers another reason to come back with PurClean™ Spot-Free Rinse Systems.

PurClean™ Spot-Free Rinse Systems remove all contaminants from the water supply that if otherwise left untreated would result in unsightly water spots. Pure mineral-free water delivered to the vehicle as a final rinse allows the entire vehicle to dry perfectly spot-free, removing the need for costly and labor intensive hand drying.

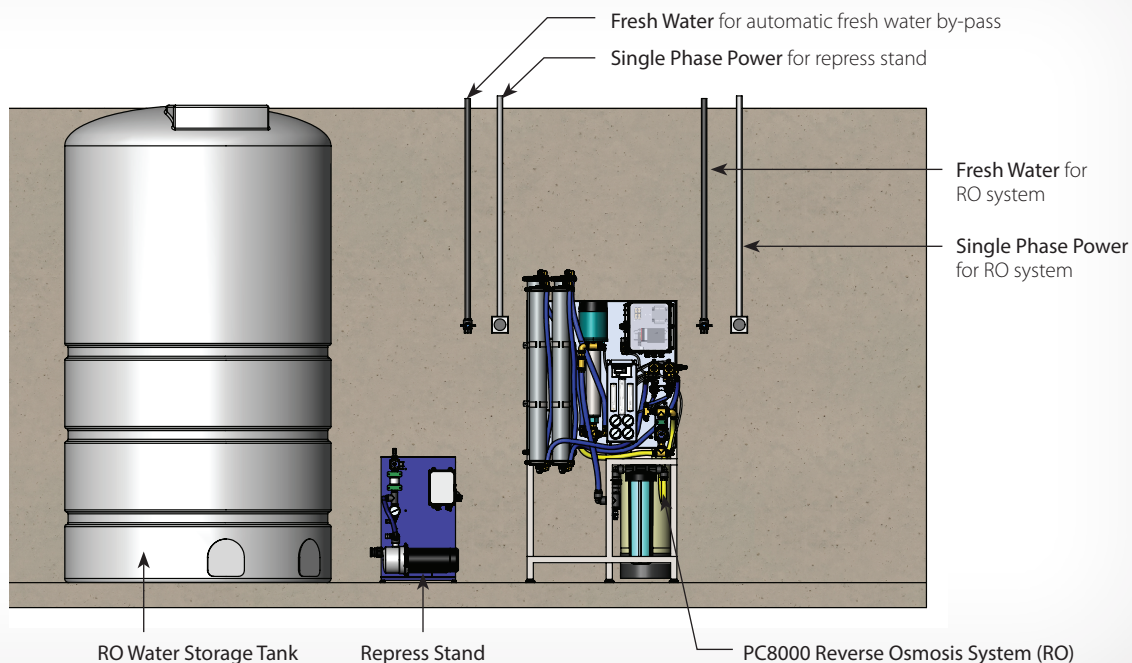

- Extremely efficient performance – Processes water 5 times before rejecting
- Patent pending water stabilizer bar eliminates the need for a water softener
- Multiple model sizes to meet the needs of all washes
- Uniquely engineered reject water recapture systems

Our dedicated engineering and technical support offers the best service to assist you every step. Unparalleled project management, professional installation, industry-leading warranty, and onsite training ensure continuous cost-effective performance of your system.
